CXO₄RENT
A Management Consultancy

Management Consulting

*Our Experienced Consultants
Can Untangle the Complexities
of Your Business*

CXO₄ RENT

Practice Areas

CXO4Rent provides services in four practice areas: Executive Management, Project Management, Technology Leadership, and Business Management. We provide senior consultants with vast industry experience in these areas.

We foster success in our client companies by taking a holistic approach to helping businesses and by integrating the three major systems that companies possess: Human, Business, and Technology.

Executive Management

Don't let that department or function falter without leadership. Let CXO4Rent provide an experienced interim executive for your company's specific needs such as a CTO, CIO, COO, CEO, or VP. In addition, we can lead the executive recruiting efforts to find a permanent employee. We also serve as an Advisory Board Member for several of our clients.

Project Management

Are your projects finishing on time and on budget? Let CXO4Rent introduce process discipline into your company. Our experts are exceptionally talented in the delivery of complex projects and managing their personnel, plans, and processes. Our expert advice is adapted to today's fast moving business climate and includes practical recommendations that save you time and money.

Technology Leadership

In today's ever-changing technology landscape, it is difficult to ensure that your business is on the right track and is spending its precious technology dollars effectively. Our knowledgeable consultants will work with your staff and assess your current technology strategy. And, if you don't have one, we can help you create a cohesive business focused technology strategy. CXO4Rent can also provide technical staff to define, develop and deploy your most critical systems.

Business Management

Every business needs a boost to get to the next level or can use some help in managing change. CXO4Rent can facilitate change in your operations or your personnel. Our very capable consultants have guided many companies through successful turnarounds by re-engineering the business processes. Operational issues always have a personnel component so we offer mentoring and executive coaching along with an organizational assessment and development program.

Our Consultants

Many of our consultants have held executive positions at both Fortune 500 companies and start-ups. This unique blend of experience gives CXO4Rent a powerful perspective that our firm can apply to your company's needs.
